Introduction

Gurukrupa Enterprise is a reputed and eminent Aluminum Products and Services Provider. Gurukrupa Enterprise Products is satisfying its clients with smooth and successful project deliveries from last 15 years and have become a prominent name in the industry.

Gurukrupa Enterprise Designs, Manufactures and Delivers ranging products from Doors, Windows, Partitions, Curtain Walls, Structural Glazing, Spider Glazing, Aluminum composite panel wall Cladding, Acoustic Window, systems etc via its state-of-the-art design and manufacturing units across the India.

Gurukrupa Enterprise is Pioneer to Indian Aluminum Products manufacturing and implementation and has carried out more than over 70 successful projects across India. Gurukrupa Enterprise has completed Projects by maintaining almost 98% success ratio overall and creating client-tele in the states and cities.

Gurukrupa follows the best industry Standards to provide great quality and maintaining timed deliveries. Gurukrupa Enterprise Systems ensures its clients that the entire project undertaken runs smoothly and clients get satisfactory performance and delivery from us.

**WE ASSURING YOU OF
OUR BEST CO-OPERATION AND**

Specialization

Structural Glazing

Now a day's Structural Glazing is becoming a best option for curtain, Storefront Installation, and Windows amongst the other glazing options because of its easy to Install, Anti-leakage to water and air penetration. The sealant and spacer pass on the Wind Pressure to the formation and provides greater flexibility, Pressure Management, solidity, Thermal Stress Balancing capabilities.

Our expertise with the Structural Glazing competes on the following points:

1. Sealant Performance
2. Air and Water Infiltration
3. Structural Requirement
4. The Energy Efficiency Factor
5. Laminated Glass Performance
6. Safety and Security Parameters enforcement
7. Reduction in Sound
8. Solar Radiation and Heat Control
9. Low Visible Distortion

The above criteria make the Structural Glazing critical to be implemented and require a specialist to look at.

Spider Glazing

Gurukrupa Enterprise System is providing the best solutions with Spider Glazing in the industry by maintaining high quality standards for products as well implementation. With changing technologies and market requirements the Glass Curtain Walls and Glass Structures are finding new heights in terms of glazing. Ranging from Singular Aluminum Alloy to Serialized Mounted Frameless Glass Curtain Walls including Hanger Type, Hanger Plus Spider-Fitting, and Fully Spider Fitting has found its popularity amongst others. Crystal Metals Pvt. Ltd. Systems provides best services with the above technology with great quality and maintaining High Standards.

Auto Door (Sensor)

Gurukrupa Enterprise Systems Provides High-Density Detection pattern system, self-diagnostic for Malfunctioning, Selectable Presence Timer, Wide color variation, Stable Detection at snow, Pattern width and Depth Adjustment Capabilities, Easy and Quick Mounting with its Auto Door(sensor) Technology.

Gurukrupa Enterprise Products provides Patch Fitting Doors to meet the demand of durable aluminum fittings, with quality and great finishing.

Canopy (Glass & A. C. P)

Gurukrupa Enterprise Products provides you an option to enjoy the atmosphere with Rain or sunshine independently almost. We provide Canopy to meet the requirements to our clients.

Glass Partition

Gurukrupa's products for Glass Partitioning provides Flexible and modish just as you desire to be. Glass Partition manages the space yet provides an effective way for Partitioning requirements.

Curtain Wall Fix Glazing

Gurukrupa manufactures and provides excellent Curtain Wall Fix Glazing Systems by using quality material and newest technology which ensures high satisfaction ratio for clients.

Aluminum Composite Panel

A widely-used Panel which consists of a non-aluminum core bonded between two aluminum sheets. Gurukrupa holds leading place in providing the solutions for Aluminum Composite Panel.

Aluminum Door

Gurukrupa Enterprise Products provides Aluminum Doors along with the variety in Sliding and Swing types with great accuracy in configuration as well industry best quality. Being the Industry leader in the aluminum products Gurukrupa maintains the high level standards for providing end-to-end solutions in Doors.

Aluminum Window

Gurukrupa Enterprise Products provides Aluminum Windows along with the variety in Sliding and Swing types with great accuracy in configuration as well industry best quality. Pioneer in Aluminum product manufacturing Gurukrupa provides best in

Gurukrupa provides best in class Aluminum Window in industry.

Aluminum Partition

For more Spacing along with the modern look with Aluminum Partition provides a new look to Offices and Homes.

Stone Cladding (Aluminium Sub Channel Fixing System)

Fixing systems with aluminium sub channel systems are preferred due to its light weight and easiness of cutting and drilling. These systems are used for the installation of cladding panels such as, natural stone panels , ceramic panels and fibre cement panels.

Three connection systems are used for stone installation. One is with a pin system to install panels through drilled pin holes at the edge of the panels. The second is for installing panels with undercut anchors through undercut holes drilled at the rear surface of the panels. The third system is the kerf system where panels have slots opened at the edges of the panels where kerf angles are used for fixing.

Three dimensional adjustability is enabled and fast installation is possible due to the light weight of aluminium and the ease of cutting and drilling on site.

- Fixing to sub channel structure which is attached to load bearing beams
- Light Weight and easy to install
- Possibility of cutting and drilling aluminium channels provided flexibility
- Fully Adjustable and allows fast installation with the use of self drilling screws
- Aluminium channels are from extruded sections grade approved by architecture.

Our Successful Projects

Gurukrupa Enterprise Products explores the new technologies considering the business impact and helps its clients providing best products and services to achieve their business goals. By linking technology and business success Gurukrupa has completed a number of successful projects across Indian Regions.
